Nitric Oxide Precursor for Pumps,  
Performance and Recovery

**NITRIC OXIDE SUPPORT** | **MUSCLE BUILDING ASSIST** | **NUTRIENT UPTAKE SUPPORT**

PLACE ORDER TODAY

## FUEL STRONGER TRAINING SESSIONS WITH CLEAN NITRIC OXIDE SUPPORT

Your training demands consistency, intensity and a body that responds when you push harder. AAKG™ supports your natural nitric oxide pathway, helping your muscles receive better blood flow and nutrient delivery during every workout. Stronger circulation means stronger performance.

AAKG™ works at the cellular level by assisting natural protein synthesis while helping reduce muscle tissue breakdown during intense training. This gives your body the support it needs to stay in a growth-focused state, whether you are lifting heavy, doing fasted cardio or pushing through high-volume sessions.

Its 2 to 1 Arginine Alpha-Ketoglutarate ratio is designed for athletes looking for targeted nitric oxide support without stimulants. This format also provides flexibility for stacking with pre workouts, creatine, amino acids or hydration formulas, making it ideal for any training style.

With convenient caplets and a clean formula, AAKG™ is the perfect addition for athletes who want better pumps, better nutrient uptake and better results from the effort they put in every day.

## PUSH HARDER, RECOVER FASTER AND UNLOCK YOUR WORKOUT POTENTIAL WITH AAKG™.

## FREQUENTLY ASKED QUESTIONS

### When should I take AAKG™?

Take 1 caplet with food before training. Do not exceed 4 caplets in any 24-hour period.

### Can I stack AAKG™ with my pre workout or creatine?

Yes. AAKG™ is stimulant free and pairs well with creatine, amino acids and pre workout formulas.

### Does AAKG™ help with pumps during workouts?

AAKG™ supports natural nitric oxide production, which may help with healthy blood flow and workout pumps.

**Suggested Use:** Take 1 caplet with food. Do not exceed 4 caplets in a 24-hour period.
