## TRAIN SMARTER DURING FASTED CARDIO

Fasted cardio is a popular technique among dedicated athletes and active individuals. It can be effective, but often comes with challenges like low energy and the risk of muscle breakdown. BCAA Boosted™ is formulated to help you stay sharp, energized, and hydrated without adding calories or carbs.

This advanced formula delivers a 2 to 1 to 1 ratio of BCAAs plus Glutamine to help support lean muscle during training. Beta Alanine provides endurance support, and a powerful thermogenic matrix gives you the mental focus to push through. The electrolyte blend helps maintain fluid balance so you feel strong from start to finish.

Whether you're training before breakfast or hitting cardio later in the day, BCAA Boosted™ is a smart way to support performance, hydration, and muscle recovery. It's calorie free, stimulant free, and designed to elevate your results without interfering with your goals.

## ESSENTIAL SUPPORT FOR FASTED PERFORMANCE AND RECOVERY

## FREQUENTLY ASKED QUESTIONS

### What is BCAA Boosted™ and who is it for?

BCAA Boosted™ is a calorie free intra workout supplement designed for athletes and fitness enthusiasts. It is ideal for fasted cardio, early morning training, or anytime you want to train without added macros.

### Can I use this product even if I am not doing fasted cardio?

Yes. BCAA Boosted™ works well during any training session. It helps support endurance, hydration, and energy without adding calories to your routine.

### Does it contain caffeine or stimulants?

No. It contains a natural energy matrix with thermogenic ingredients but does not include added stimulants or caffeine.

**Suggested Use:** Mix one scoop with 8 to 10 ounces of cold water. Drink before or during your cardio session, especially if training in a fasted state. For best results, use daily as part of your training routine.
