## FUEL YOUR TRAINING. SUPPORT FAT METABOLISM. STAY READY.

Your training demands energy that lasts. SAN Nutrition L-Carnitine 3000 is a fast absorbing liquid supplement designed to help your body convert stored fat into usable energy, supporting performance during workouts and everyday movement.

Each serving delivers 3000 mg of L-Carnitine, an amino acid derivative that plays a key role in transporting fatty acids into the mitochondria, where energy is produced. This process helps support endurance, training output, and body composition goals.\*

To support efficient energy metabolism, L-Carnitine 3000 is enhanced with Vitamin B5, which helps break down carbohydrates, fats, and proteins so your body can use nutrients more effectively.\*

With a sugar free, low calorie formula and a refreshing Blue Raspberry flavor, this liquid supplement fits seamlessly into cutting phases, active lifestyles, and daily routines without unnecessary fillers or artificial dyes.

Designed for consistency and confidence, L-Carnitine 3000 is third party lab tested and made without banned substances. Its clean, sugar free formula makes it easy to use daily, whether you're training hard, staying active, or managing your nutrition goals. Simply add it to your routine and let your body work smarter with the energy it already has.\*

**TURN FAT INTO FUEL.  
TRAIN WITH CONFIDENCE.**

## FREQUENTLY ASKED QUESTIONS

### What does L-Carnitine do?

L-Carnitine helps transport fatty acids into cells to be used as energy, supporting fat metabolism and sustained performance.\*

### Is this product only for fat loss?

No. While it supports fat utilization, it is also used to support energy levels during training and active lifestyles.

### Can I stack this with other supplements?

Yes. L-Carnitine 3000 stacks well with protein, pre-workouts, and other SAN Nutrition products.

### Is it sugar-free?

Yes. This formula contains zero sugar and only about 12 calories per serving.

**Suggested Use:** Take 1 serving daily, preferably before workouts or physical activity. Always follow label directions and consult a healthcare professional if needed.
